

I am 100% behind the FCC on this decision, since we already do all that is being introduced by them. What networks like Clear Channel, stations, and the NAB have forgotten is that the airways are a privilege, not a right. It states on your licence application and guidelines for it that there is not to be vulgar content on airways. I am glad of the crackdown and say as a broadcaster, "It is about time!!!!!" If stations and networks do not want to do this, there are people in line that would be more than happy to follow the rules! I am an NAB Member, and this is my opinion.  
Sincerely

Matt Coombes
